**Research Results on SDG - 16.7.2- Indicator:  
Measuring the Inclusiveness and  
Responsiveness of Public Decision-Making  
as Perceived by the General Population, in  
Mongolia**

**Dr. Narantuya J (Associate Professor)  
Department of Public Administration**

# SDG 16.7.2 ?

“

What percentage of people in Mongolia feel they are listened to and their opinions influence the decision-making of the government?

”

## 1. Introduction

- Судалгааны зорилго, ТХЗ 16.7.2-ын Үндсэн үзэл баримтлал:
- ТХЗ 16.7.2-ын хэрэгжилтийн ач холбогдол

## 2. Main results

- Үр дүнгийн задаргаа

## 3. Conclusion

**The purpose of the research:** To determine the baseline for SDG 16.7.2 by measuring the inclusiveness and responsiveness of public decision-making through the population survey.

## The main concept of SDG 16.7.2

- Inclusive decision-making - шийдвэр гаргахдаа иргэдээ ялгаварлалгүй тэгш оролцуулсан

*inclusive decision making meaning “**have a say**” in what **the government does**, or speaks to the representativeness of participants, or everyone affected by a particular decision should be able to take part in the decision-making process, without discrimination),*

-responsive decision-making шийдвэр гаргахдаа иргэдийн саналыг тусгасан үр дүнтэй

*(responsive decision making – “responsiveness” looks more closely at “impact”. **Impact**, meaning “**have an influence**” on **politics**, or that decision-makers have to state in advance how they will act on the recommendations made by the group)*

# MAIN RESULTS

36.6% of a sample of **4325** participants positively answered the above 2 questions

If compared to the general population - 35.5%

In 2019 baseline was considered as 57.1% (*XAX, 2022:87*). There is a 21.6 of difference between this baseline and our results.

## Why is there a big difference between 2019 and 2022 baseline?

- In 2019, the UN have not developed metadata methodology yet, so Mongolia used a different method at that time.
- This time **UN methodology was employed for the first time** in Mongolia for SDG 16.7.2.
- This research connected the 2022 SDG 16.7.2 survey data **to the Household survey data of 2021 stored with the NSO.**

**1. How much would you say the government allows people to have a say?**

**2. How much would you say that the government allows people to have an influence on decision-making?**

Sample	Population	Sample	Population
<b>38.4%</b>	<b>36.8%</b>	<b>34.7%</b>	<b>34.1%</b>
The mean of those who answered positively to two questions		Sample <b>36.6%</b>	Population <b>35.5%</b>

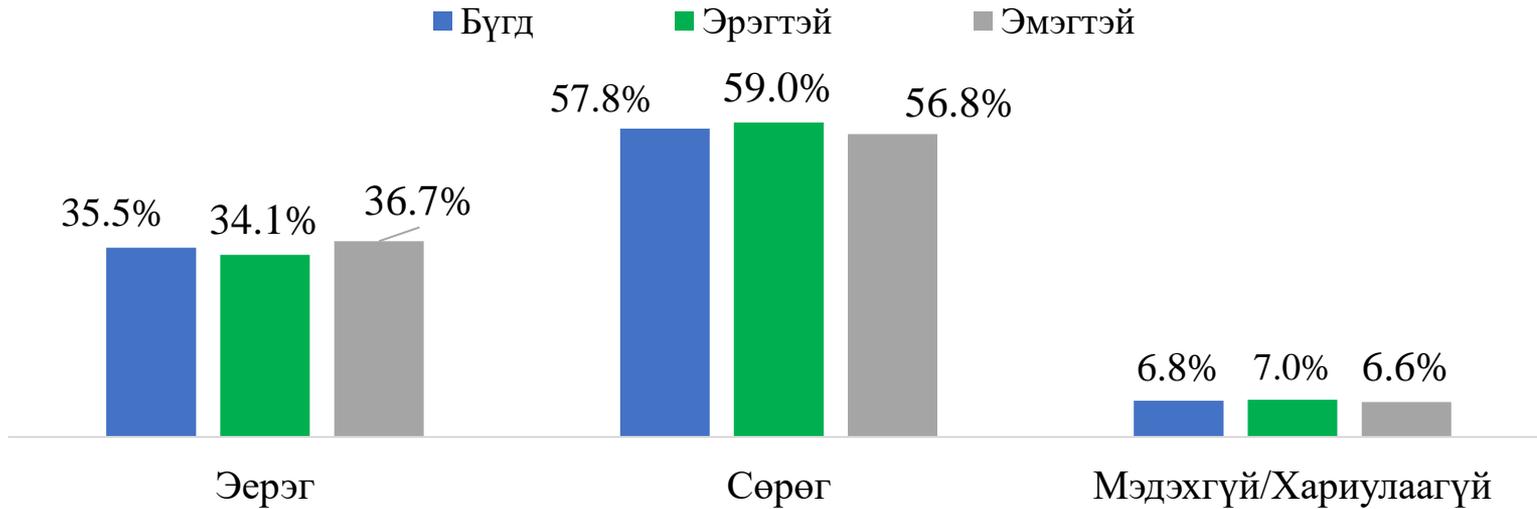

## Results if compared to some countries */percentage/*

Disaggregation		Mongolia 2022	Columbia 2021	England 2022
	The Mean	35.5	23.7	A2 27
Sex	Women	36.7	-----	26.3
	Men	34.1	-----	27.7
Location	City	32.4	28.0	27.0
	Rural	42.0	31.5	26.3
Age	25-34	36.8	26-40 нас 22.0	26.9
	Above 65	50.3	27.0	25.5

## 1. BY SEX

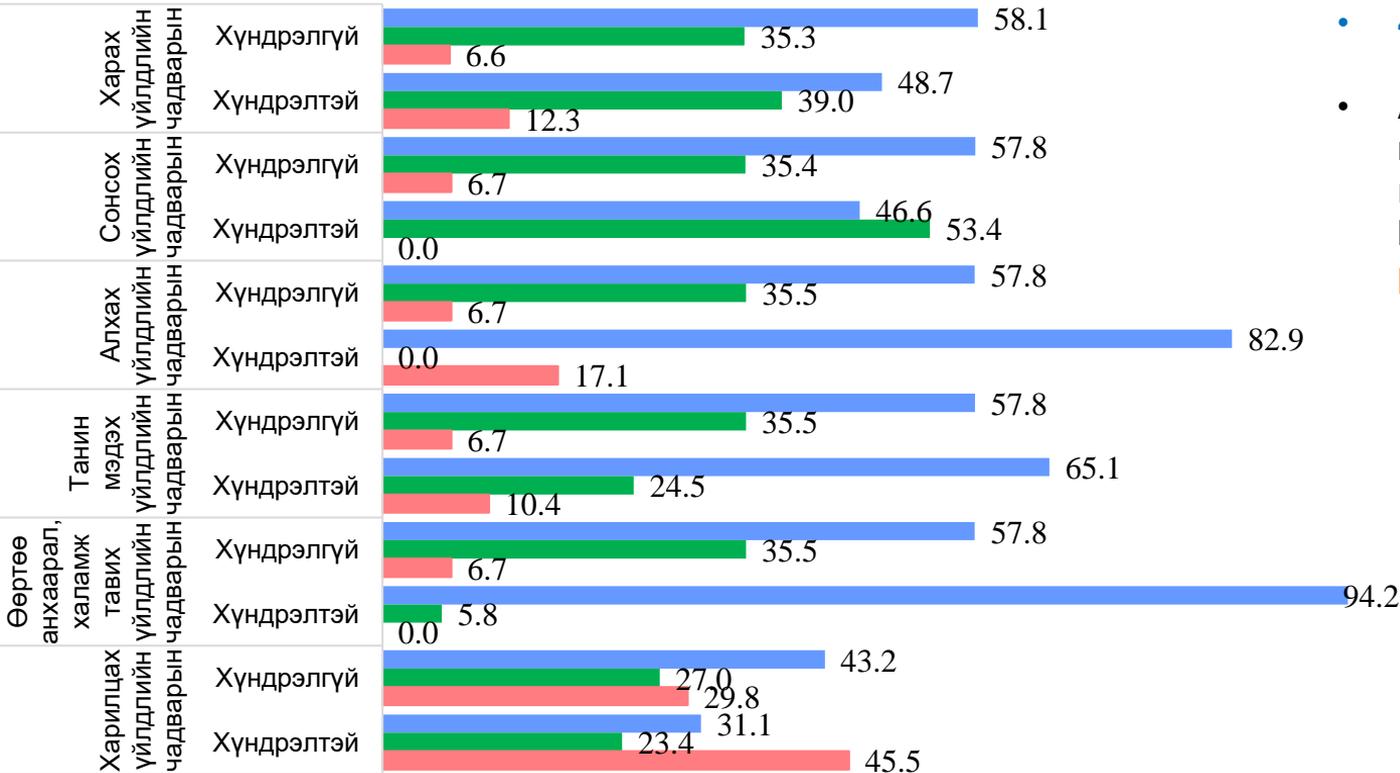

### By sex:

- Women **36.7%**,
- Men **34.1%**

# DISAGGREGATING DATA

## 2. BY DISABILITIES

■ Сөрөг ■ Эерэг ■ Мэдэхгүй/хариулахаас татгалзсан

- **39.0 percent positive**
- **48.7 percent negative**
- Among those who have mobility disability responded with the highest negative, or **82.9 percent**.

# DISAGGREGATING DATA

## 3. BY AGE

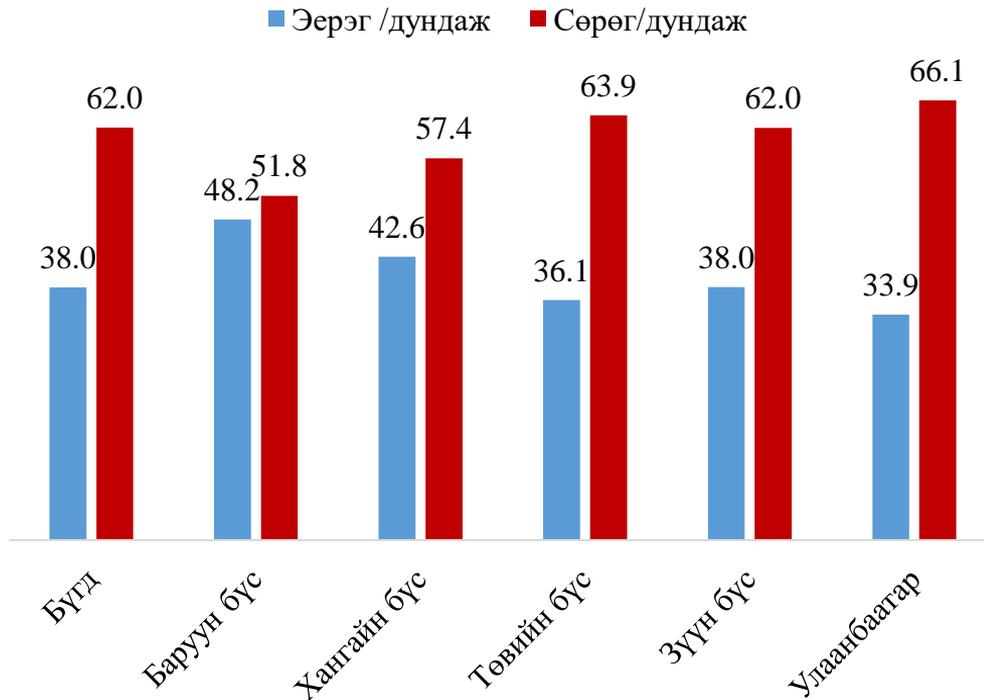

- Ages with the highest negative responses are 25-34, or **63.2**.
- **65 and above** are the age with the highest positive, or **50.3**.

## 4. BY EDUCATION

- Of those with Ph.D. degrees only **11.2 percent responded positively**,
- Of those with Master's degrees **28.4 percent responded positively**
- Compared to the above two degrees, the response of those with other education is relatively high, or above **30 percent is positive**.
- Specifically, the response of those with elementary education is the highest positive, or **46.1 percent**.

# DISAGGREGATING DATA

## 5. BY REGIONS

The highest negatives:

- Those living in the Central region - 63.9 percent negative,
- Those living in Ulaanbaatar - 66.1 percent **negative**

The highest positives:

- Those living in Western regions - **48.2** percent **positive**.

# Why is it important for us to measure SDG 16.7.2?

1. According to the UN Sustainable Development Cooperation Framework for 2023-2027, Mongolia aims to reach the target of **65.8% for SDG16.7.2** by the end of the implementation of this framework (XAX, 2022:87).

2. **SDG 16.7.2 is aligned with 3.6, 5.1-5.6 and 7.3, 7.4, 7.5, 9.3, 9.4 the Vision 2050 objectives, of Mongolian long-term policy** and therefore, has high value **for the implementation of the Vision** (*Урт хугацааны хөгжлийн бодлого, “Тогтвортой хөгжлийн зорилго 2030”-ын хэрэгжилтийг хянах шалгуур үзүүлэлтийн судалгаа, 2022:124* ).

3. Interlinkages between SDG 16.7.2 data and other SDG indicators show the importance of this goal in terms of inclusiveness of women, youth, and persons with disabilities (UNDP Oslo Governance Centre – SDG 16 Policy Brief, 2022:6)

ТХЗ-ын бусад шалгуур үзүүлэлт	ТХЗ 16.7.2		
	Эмэгтэйчүүд	Залуучууд	Тусгай хэрэгцээт иргэд
4.4.1		+	
5.1.1	+		
5.5.1	+		
10.3.1	+	+	+
11.3.2	+	+	+
16.7.1 a, b, c	+	+	+
16.10.1	+	+	+
16.10.2	+	+	+

# CONCLUSION

16 PEACE, JUSTICE  
AND STRONG  
INSTITUTIONS

16.7.2

Inclusive and  
responsive  
decision-making

- “
- Political efficacy of the decision-making of the government is **35.5%** according to the survey results.
  - Based on the survey results, it is concluded that the policy toward ‘inclusive and responsive decision-making’ can be directed at those groups of people whose opinions were highly negative.
- ”

# CONCLUSION

16.7.2

Inclusive and responsive decision-making

As of **2022**, countries will be invited to *report* on SDG indicator 16.7.2 **on an annual basis**. Countries will need to consider the integration of the two survey questions required to report on this indicator into ongoing surveys. (*UNDP Oslo Governance Centre – SDG 16 Policy Brief, 2022:11, 16*).

The National Academy of Governance research team, in collaboration with the NSO, used the methodology for **TX3 16.7.2 for the first time** in Mongolia piloted in other countries, and determined the baseline for the country. Therefore, the results became comparable at the international level.
