

# Our Vision

## COVID-19 and Youth Unemployment

COVID-19 has had negative effects on agriculture and youth unemployment

## FARMACY

A stepping stone towards achieving green agriculture and promoting communication while providing relevant job experience for the youth

## Youth Employment Green Agriculture Governance in Rural Areas

The ultimate goal

## Farmacy

Green Farm Genie

## Farmacy

### Gil Dong's Green Farm

#### Overview

Green Scale: 95/100

- biodiversity can be improved
- Integration of crops and livestock is a plus

#### Recommendations

- 1) integrated pest management
- 2) renewable energy sources: solar panels are on sale!

REVIEWS OF SOLAR PANELS

Green Farm Genie

## YOUTH UNEMPLOYMENT

Internships and work experience are vital for the youth when securing jobs (Gallup, 2018) However, internship and job postings have declined during COVID-19

Youth Farmacists, who are the operators of Farmacy, will gain valuable work-related experience

## PPP Partnership

The online platform Farmacy is operated through a connection of private, public, and people

# FARMACISTS (People)

## GOVERNANCE

- Live-stream, upload and summarize town meetings
- Work with town officials to give update on projects proposed in petitions

## DIGITAL EDU.

- Educate Farmers basic digital skills
- Educate rural youth on professional technology skills
  - Scouted IT specialists educate Farmacists

## DATA PROCESSING

- Work with ITU to establish digital infrastructure
- Operate the simulation program "Green Farm Genie" via blockchain technology

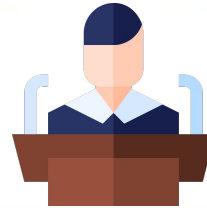

## ADMIN.

- Manage online platform  
ex) give penalties to offensive posts
- Supervise 'Farmacy'
  - Track Farmacy's achievements by publishing an annual report of each rural area

# Working with Private & Public Sectors

## Governance

People propose changes through the petition board, while government officials actively communicate through Farmacy to propose policies and bring about change

## Green Technology (AgriTech Startups)

AgriTech startups have had difficulty engaging with farmers. Farmacy will be the platform for agriTech startups to advertise green technology and create shared value. The youth gain internship experience in such startups to become entrepreneurs themselves.
